

Edmonton and Calgary Superstore employees both accept offer!

Both Edmonton and Calgary Superstore and Liquorstore employees have voted in favour of accepting a new Company offer. Both locations voted by a 58% margin to accept their new contracts.

Union officials believe the offer is good but employees only narrowly accepted it because of anger at their employer.

The offer will form a new collective agreement that is one of the best in the retail food industry. However, Superstores have a reputation of having a negative and poisoned workplace culture that must be changed.
