Superstore Edmonton Strike Deadline set

UFCW local 401 has set a strike deadline of 1 minute past midnight on October 6th, 2008 for the Edmonton and area employees of the real Canadian Superstore and liquor employees. In other words, employees from those areas should report for picket duty in front of their store a few moments after midnight, at the end of the evening of October 5th.

Please pre register for the strike as soon as possible (see icon on this web site).

A strike deadline has been set to motivate the company to negotiate. If, however, a settlement has not been reached by that time, the Edmonton strike will commence.

A Calgary strike vote and vote on the company offer will occur on Tuesday September 23, 2008. Saskatchewan SS employees have vote by a 96% margin to strike there by October 5th, 2008 if a settlement has not been concluded in that province by then.
